Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on Apr 15, 2002.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11; 453 O.G. 213.

Art Unit: 1616

Claims 1-23 are pending in this application which has been filed under 35 USC 371 as a national stage application of PCT/EP99/04260, filed June 23, 1999. This application lacks unity of invention under 37 CFR 1.475 (MPEP 1850, 1893.03(d)). Restriction has been required under 35 U.S.C. 121 and 372.

This application contains the inventions or groups of inventions as enumerated in the previous office action which are not so linked as to form a single general inventive concept under PCT Rule 13.1. Group I, claim(s) 1-2, will be examined along with the elected invention and is drawn to compositions comprising:

- A. an anti-infectious active agent that inhibits the 2C-methylerythrose-4-metabolic pathway
- B. a lipid metabolism inhibitor.

In the response filed April 15, 2002, applicant has elected the invention comprising:

add doneate
Group II, wherein B is a squalene synthase inhibitor

fos midomyin
Group VI, wherein A is a phosphorus containing compound

Group XII, drawn to uses of lipid metabolism inhibitors as herbicides.

Note that Group IX (wherein A is an oxazole compound) will be included with Group VI, in response to applicants' comments.

Applicant has not elected a species as required previously.

Again, this application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1., as noted above.

Art Unit: 1616

The species are as follows: any combination of a **specific** pair of compounds from each of the A and B components as noted above.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Again, upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The following claim(s) are generic: 1, 2, 21.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to S. Mark Clardy whose telephone number is (703) 308-4550.
